

“At the American Psychotherapy Association we deliver cutting edge healthcare.”

The American Psychotherapy Association and Enigami Behavioral Health, LLC would like to provide 20 free annual subscriptions to the first twenty five clinicians who contact Ms. Judy Simpson, at the American Psychotherapy Association headquarters.

The media currently used is web based. HIPAA compliant.

“SymptomTrack” Beta monitors the top behavioral health conditions. It provides unlimited symptom reports, unlimited medication monitoring, and journaling. Clinicians and client’s pick a schedule for client email reminders to log in and report. We are HIPAA compliant and IRB reviewed for our research studies Registration and sign up “couldn’t be simpler”. We suggest the clinician, or a tech, work with the client in setting up the health record – as a diagnosis is required. An ROI is provided on the site if needed. This is an annual subscription.

For Clients – the most effective, shortest, and most patient centered treatment available. **For Clinicians** – Increase your caseload capacity / differentiate & document your quality of evidence based care from competitors / perform large numbers of remote medication monitoring / document diagnosis, outcomes, and need for services / insurance reimbursement / monitor high risk clients

For Organizations – Entities may be interested in identifying the strength areas for clinicians in order to align reimbursement with the “go to” talent. Other features available.

The services provided by Enigami Behavioral Health, LLC (a subsidiary of Enigami Systems, Inc.) are based on innovative and breakaway technology. Many features, such as the outcomes graph are patented or patent pending. Enigami, proudly partnered with the American Psychotherapy Association to introduce these services. The American Psychotherapy Association is an incubator for significant healthcare innovations and serves as a national “thought leader” for treatment innovations.
